RESIDENTIAL & AGING CARE

You're different. So are we.

We've never met two communities of people that love and crave the exact same foods. Working together we'll authenticate a distinctive program that satisfies your cultural palate, distinguishes your mission and enhances your resident experience.

We create savory menus and gratifying dishes that appeal to your whole community, in spite of dietary restrictions and constraints.

Our differentiation is delivering yours.

You can be sure that your residents will be treated like our best customer. We'll cater to their likes and dislikes, choosing recipes with their preferences and wellness in mind.

Our goal is to create a dining experience that respects the cultural soul of your “home away from home”.

Our well-prepared dishes made from fresh fruits, vegetables, and lean protein sources are a therapeutic advantage. We prepare meals from scratch using the freshest ingredients every chance that we get.

Our preference for real cooking controls costs, produces savory flavors, reduces the amount of salt, sugar and oils used and ensures that your community is eating a balanced meal in the right proportions.

By focusing on quality ingredients and high standards of preparation we create popular dishes with superior flavor and nutrition value.

We prove everyday that delicious meals and healthy food are compatible goals. We Honor Aging With Independence & Dignity

There's more to eating than calorie intake when it comes to feeding seniors. Memories, taste buds and appetites may dim over a lifetime, but the significance of food preferences, rituals and choice does not dull with aging. Mature residents cherish the simple pleasure of celebrating life with the foods they've always loved to eat.

The freedom to make food choices, socialize and enjoy a meal are all acts of independence and dignity that impact many senior's sense of fulfillment three times a day. We bring a seasoned culinary perspective to our work.
